

The written assignment of your study abroad experience is intended as a report, evaluation and feedback. This guidelines give an overview of the topics to be addressed in your report. In general this report do not have to exceed more than 400 words.

### Overall experiences stay abroad

What is your overall experience and why would you recommend a stay abroad to other students, or not?

Please focus on different aspects of your experiences you would talk about to fellow students and friends. Like campus life or at the office, social life and personal and professional experiences.

### Experiences about culture & country

What has the chosen country/culture contributed to your future?

Why have you chosen for this country and how did your experiences match the expectations?

On what international competences have you worked?

Tell something about life in the city/country of your destinations, trips and visits which are a must see or do.

### Motivation study programme/assignment

What has the chosen internship company/university contributed to your future, personally or in terms of content?

Why have you chosen for your minor subjects/internship assignment and how did your expectations come true?

On what professional and/or personal competences have you worked?

### Ambassadorship FHICT

What was your contribution to FHICT during the period abroad, what will you take back to Fontys and the Netherlands?

How have you acted as an ambassador of FHICT in the (possible) relationship with contacts abroad?

What will you do to share experiences during and after the stay abroad?
